

INSTRUCTOR PROFILE

Eva

A former Creative Director turned entrepreneur shows you the tools for professional graphic design.

Eva Sandor is more than just a software instructor...she's an illustrator, designer and copywriter who's been using the Adobe Creative Suite ever since its introduction. Learn how to use the programs that she uses to create marketing materials, product patterns, logos and more!

BIO

Eva grew up with art. Starting as an illustrator of children's coloring books when she was a child herself, she became a graphic designer in the days "B.C." (before computers).

When the computer revolutionized graphic design, Eva was just starting her career in advertising. She was an early user of all the programs today's designers can't get along without: Photoshop, Illustrator and others which are now just memories.

After becoming a Creative Director, partner and VP in one of Chicago's most respected real estate advertising agencies, Eva branched out in a new direction. In 2006 she began designing her own line of luxury pet gear... and teaching at Training Connection.

Let Eva's real-world experience and skill in explaining concepts work for you. This exceptional and passionate trainer consistently achieves top marks on her evaluations.

EDUCATION

- BFA, Carnegie-Mellon University

- CompTIA CTT+
Recognizes excellence in instruction

"Eva was efficient, friendly, professional and most of all, patient! She has such a calm, soothing demeanor that really took the stress out of learning difficult concepts. I'd certainly recommend her and this course!"

—Natalie Nash
Crete-Monee School District

"I enjoyed this class very much. I learned a lot of valuable information that I will be able to use in my day to day activities at my job. Eva was great! She was very friendly and made the learning atmosphere fun and keep it interesting, while at the same time paying the same amount of personnel attention to each student. I highly recommend this course."

—Melissa Ziemba
TranSystems

"I thought this was an excellent course and I learned a great deal over the past two days. The instructor was knowledgeable and friendly and taught at a good pace."

—Bailey Lowry
Great Lakes Dredge and Dock Company

"Instructor was fantastic. She explained concepts in a very clear way. Best computer training class I ever took because of her skill. (I've taken about 10 training classes in my career.)"

—Stephanie Simmons
