Lesson 6: Bringing Everything Together

Create a retro poster that brings together the techniques covered, skills that can be applied to many other projects.

- Basic formatting, design and output for Print
- Design and layout
- Working with Layer Style Effects
- Exporting work for Print,Web,Social and Film/TV

Lesson 7: Deeper Exploration with Exports

This optional module or lesson will go further into determining what file formats are best for specific situations.

- Project delivery: Print, Social Media, Film/TV & Beyond
- Common File Formats: JPEG / PNG / GIF / TIFF / More
- New File Formats: HEIC / HEVC / WEBP / JPEG-XR/XL / More
- Saving to the Cloud vs Computer

This outline represents a general overview of topics covered in class. Lesson order and content may be adjusted or combined as needed to create the most effective learning experience. Due to frequent application updates, provided books and materials may not always reflect every feature discussed in class, including Adobe's own documentation, which can occasionally lag behind current versions. We will always strive to provide the most accurate and up-to-date information available. Students are encouraged to take notes during class and to take full advantage of Training Connection's audit option, which allows you to retake the course at your convenience.
